Dear All

This is just a quick update on progress so far...

We are running a little behind schedule as the surveys trickled in after the deadline. It has now been closed, and I am able to provide some initial headlines for you.

- We issued surveys to 1259 households and have received 240 submissions – 60 online via Survey Monkey.
- This represents a 19% response rate. Lower than our average 25%.
- Subject to further detailed analysis it would appear that:
 - 23 households have an identified a housing need
 - 7 market housing and 16 affordable housing
- Housing need varies between 1 bedroom and 4 bedrooms
- There are a range of household types in need – single, couple, and families with children (both under and over 18 years of age)

We are aiming to get a draft report for consideration / comment by the end of this month. In the meantime, if you have any initial query please don't hesitate to contact me.

Best regards
